## Morgellons Disease Related to Black Magic Rituals?

<sup>i</sup> **Black magic** has traditionally referred to the use of [supernatural](#) powers or [magic](#) for [evil](#) and selfish purposes.<sup>[1]</sup> With respect to the [left-hand path and right-hand path](#) dichotomy, black magic is the malicious, left-hand counterpart of the benevolent [white magic](#). In modern times, some find that the definition of "black magic" has been convoluted by people who define magic or ritualistic practices that they disapprove of as "black magic".<sup>[2]</sup>

## **MIND MANIPULATIONS BY ELECTROMETIC BLACK MAGIC**

like its counterpart white magic, the origins of black magic can be traced to the primitive, ritualistic worship of spirits as outlined in [Robert M. Place](#)'s 2009 book, *Magic and Alchemy*.<sup>[3]</sup> Unlike white magic, in which Place sees parallels with primitive [shamanistic](#) efforts to achieve closeness with spiritual beings, the rituals that developed into modern "black magic" were designed to [invoke](#) those same spirits to produce beneficial outcomes for the practitioner. Place also provides a broad modern definition of both black and white magic, preferring instead to refer to them as "high magic" (white) and "low magic" (black) based primarily on intentions of the practitioner employing them. He acknowledges, though, that this broader definition (of "high" and "low") suffers from prejudices because good-intentioned [folk magic](#) may be considered "low" while [ceremonial magic](#) involving expensive or exclusive components may be considered by some as "high magic", regardless of intent.<sup>[3][4]</sup> ii

## **EMFs and the Paranormal: Gateway**

Electro Magnetic Fields (EMF's) have been a hot topic in the field of the paranormal for many years. "Ghost Hunters" and "Paranormal Investigators" have been using EMF detection devices for quite some time in order to help corroborate or rule out supposed, alleged, or real paranormal experiences. There are several different views in regards to EMF's and their relation to the paranormal and this article will briefly outline those different theories. Before I begin, for those

of you who may not understand what an electromagnetic field is, here is a brief tutorial on the subject. <sup>iv</sup>

### **Indicator, Cause**

An electromagnetic field is an invisible, physical field created by electrically charged objects. All electrical devices such as appliances, power lines, or even batteries, etc., will have an EMF. The higher the voltage of the appliance or electrically driven device, the higher the EMF will be. Also, the EMF of any electrical device is often present, even when the device is shut off. EMF's also occur naturally and are one of the four fundamental forces of nature. As well, the sun constantly bombards us with electromagnetic fields. EMF's often occur in the atmosphere when electrically charged particles are built up resulting in thunder storms. Human beings have an electromagnetic field and there is even a theory called "The electromagnetic theory of consciousness" which states that the electromagnetic field generated by the brain is the actual carrier of conscious experience. However, that is a much deeper discussion for another day.

So, as you can see electromagnetic fields are constantly surrounding us; they are part of life and something that we cannot ignore. Ok, now that we have a basic understanding of what an electromagnetic field is, let's move on to the various theories in relation to the paranormal. <sup>v</sup>

The invisible powers that they are calling "energy" are demons manipulating modern technologies. They are caging the person's mind, body and spirit in the circle. Eternal rings and triangles do not have breaks. There are objects in their circles that attract and hold the desired they call "vibrations" but they are demons. A person in need of physical or emotional healing, may indeed require spiritual deliverance Jesus treated the two side by side, Matt. 4:24; 12:22; 17:18; Mk. 9:28-29; Lk. 6:17-18; 8:36; Acts 5:16; 10:38.

The Holy Ghost anointed Jesus with Power over unclean spirits. We have same Holy Spirit and ability to be anointed, with the same measure of power, Acts 10:38; Jn. 17:7; 14:12.

Jesus said we could do the same works Mk. 16:17. "But ye shall receive power, after that the Holy Ghost is come upon you; and ye shall be witnesses unto me both in Jerusalem, and in all Judea, Samaria, and unto the uttermost part of the earth," Acts 1:8. He is as merciful, compassionate, and truthful, a present help in time of need. He told us to observe all things, keep His commandments we will receive this power Matt 9:8. Power over all the power of the Devil, Lk. 10:19.

Examples of the caging circles would be a sketched circle, pentagram, hexagram, and a triangle. The supernatural law is that the geometric figure will lock in and enslave the willing subjects within in the circle. The victims standing in the circle physical lives will be protected from the demons killing them as long as they remain inside the ring. Different occult objects are also used such as demonic images, such

as magic spells are used for magic spells for love, magic spells money, magic spells for protection, black magic, white magic, candle magic, hoodoo root work...

The hospitalization of music legend Joni Mitchell on Tuesday night shocked and worried millions of fans. Mitchell was [found unconscious at her home](#) and rushed to the emergency room, but the nature of her illness is still unconfirmed. The incident revived concern about an odd and mysterious health condition Mitchell has spoken about suffering in the past. It is known as [Morgellons disease](#), and it reportedly affects some 13,000 people in the U.S. It's in fact so mysterious and odd that the consensus in the majority of the medical community is that Morgellons doesn't actually exist.<sup>vii</sup>

People who complain of Morgellons disease cite a number of symptoms, but the primary issue is the presence of colorful fibers or "filaments" that sprout from lesions or appear under the skin. Symptoms of Morgellons -- named from a 1674 medical paper that described similar symptoms -- also include sensations of itching, biting or crawling on the skin, as well as chronic fatigue, joint pain, difficulty with memory and thinking, mood changes and some neurological problems.

In 2010, Mitchell [told a reporter at the Los Angeles Times](#) that she has a "weird, incurable disease that seems like it's from outer space." She said the condition is the reason why she often hides from the public eye. Mitchell described seeing

"fibers in a variety of colors protrude out of my skin like mushrooms after a rainstorm: they cannot be forensically identified as animal, vegetable or mineral."

"Morgellons is a slow, unpredictable killer -- a terrorist disease: it will blow up one of your organs, leaving you in bed for a year," she continued. "Morgellons is always diagnosed as 'delusion of parasites,' and they send you to a psychiatrist. I'm actually trying to get out of the music business to battle for Morgellons sufferers to receive the credibility that's owed to them." <sup>viii</sup>

Over the years, the U.S. Centers for Disease Control and Prevention has made efforts to respond to the Morgellons community by conducting investigations, and even at one point enlisting the U.S. Armed Forces Institute of Pathology and the American Academy of Dermatology to help with research. A handful of studies suggest Morgellons is simply an indication that a person may need to seek treatment for depression, skin-picking disorder, anxiety and even substance abuse.<sup>ix</sup>

One paper published in 2012 in the respected, peer-reviewed journal PloS One -- "Clinical, Epidemiologic, Histopathologic and Molecular Features of an Unexplained Dermopathy" -- identified 115 patients from Kaiser Permanente in California who reported symptoms of the condition. The median age of the Morgellons sufferers was 52, though ages ranged from 17 to 93 years old. A majority were female and white. More than half reported overall fair or poor health, while 77 percent said they suffered from chronic fatigue. The researchers identified cognitive deficiencies in 59 percent of the patients and "clinically significant" somatic complaints -- a fancy term for hypochondria -- in 63 percent.

Physical symptoms also appeared to be questionable to the researchers. Half of hair samples analyzed in the study were found to have drug traces and half the patients had sun damage to skin.

In the study, patients with skin lesions were found to have some type of bug bite (such as fleas, bed bugs or mosquitoes) or self-inflicted wounds from chronic skin

picking. The researchers did not collect any specimens that could be categorized as parasites; the main substance identified in samples of skin fibers was cellulose, most likely particles from cotton clothing.

At the completion of the \$600,000 study, the researchers still weren't convinced: "This unexplained dermatopathy was rare among this population of Northern California residents, but associated with significantly reduced health-related quality of life. No common underlying medical condition or infectious source was identified, similar to more commonly recognized conditions such as delusional infestation," they wrote at the conclusion of their study.

Cindy Casey Holman, a registered nurse and the director of the Charles E. Holman Morgellons Disease Foundation, says the study was flawed and that the bacteria *Borrelia burgdorferi* (Bb) has been cultured from Morgellons skin lesions.

"A serious and often deadly systemic infection is present in Morgellons samples. Still patients are being prescribed antipsychotics while the infection goes undetected and untreated," Holman told CBS News in an email. "Clouding the picture is that some patients do exhibit psychiatric manifestations. But spirochetal infections, such as *Borrelia burgdorferi*, are well known to affect the central nervous system and cause psychiatric symptoms. Yet the infection is ignored while dermatologists offer dangerous antipsychotics as the only treatment." <sup>x</sup>

Currently **1 in 8 people 65 and older have the disease**, and **1 in 2 people 85 and older** have it. At current predictions, scientists predict the number with Alzheimer's will grow to **7.7 million by 2030**, and to **16 million by 2020**, unless **something** is done to stop this dangerous trend!

### **MORGELLONS DISEASE**

According to hitherto findings the Morgellons disease is a mycosis caused by a to date unknown genus of fungi. The disease is not officially recognized; hence there is no acknowledged list of symptoms available. According to different estimations about 300.000 to 600.000 patients worldwide are affected by serious symptoms related to the disease.

During medical treatment it showed that an infection with Morgellons hardly ever leads to visible symptoms. Visible symptoms normally appear only with a weakened immune system. Therefore, the research also touches the typical diseases that lie under a heavy **Morgellons infection and are responsible for the weakening of the immune system. It is hard to estimate how many people are actually infected without showing symptoms. It is very likely that the majority of the population of the western countries has been in contact with Morgellons, however their immune system manages to handle the disease more or less without showing visible symptoms.**

### **DELUSIONAL PARASITOSIS**

The Morgellons disease relates to a number of symptoms. However up to date the disease is not officially recognized. And therefore, there is no official list of symptoms. Normally patients are diagnosed having "**delusional parasitosis**" and are treated with **psychopharmaca**.<sup>xvi</sup>

### **MORGELLONS DISEASE IS A MYCOSIS**

After the analysis of photographic documentations from various patients, and a number of interviews regarding previous diseases, the consortium came to the following conclusion: The Morgellons disease is a mycosis, that with a given infection shows open symptoms only in the case that the chemical environment in the human body is in a condition that supports the needs of the fungus. Hence the fungus is not listed in biological records, and the mycelium apparently is distributed from airplanes, the idea emerged that Morgellons are a genetically modified species, a weaponized myco-insecticide, i.e. a bio-weapon applied against humanity. This would explain why the health authorities deny the existence of the disease.

### **DISCRIPTIONS**

Itching under the skin, open and slow-healing lesions with blue and red fibers as well as blue hexagonal structures growing out of the skin.

### **Anal and vaginal parturition of Morgellons fruiting bodies.**

Having the feeling of insects crawling under the skin. This feeling of being obsessed by insect like beings anecdotally is not necessarily a direct cause of the Morgellons infection. Single

patient has been completely healed from the Morgellons infection however still had the problem of sensing insects crawling within the body. Apparently, this crawling is what leads to the regular diagnosis of delusional parasitosis.

## **28-DAY LIFE CYCLE**

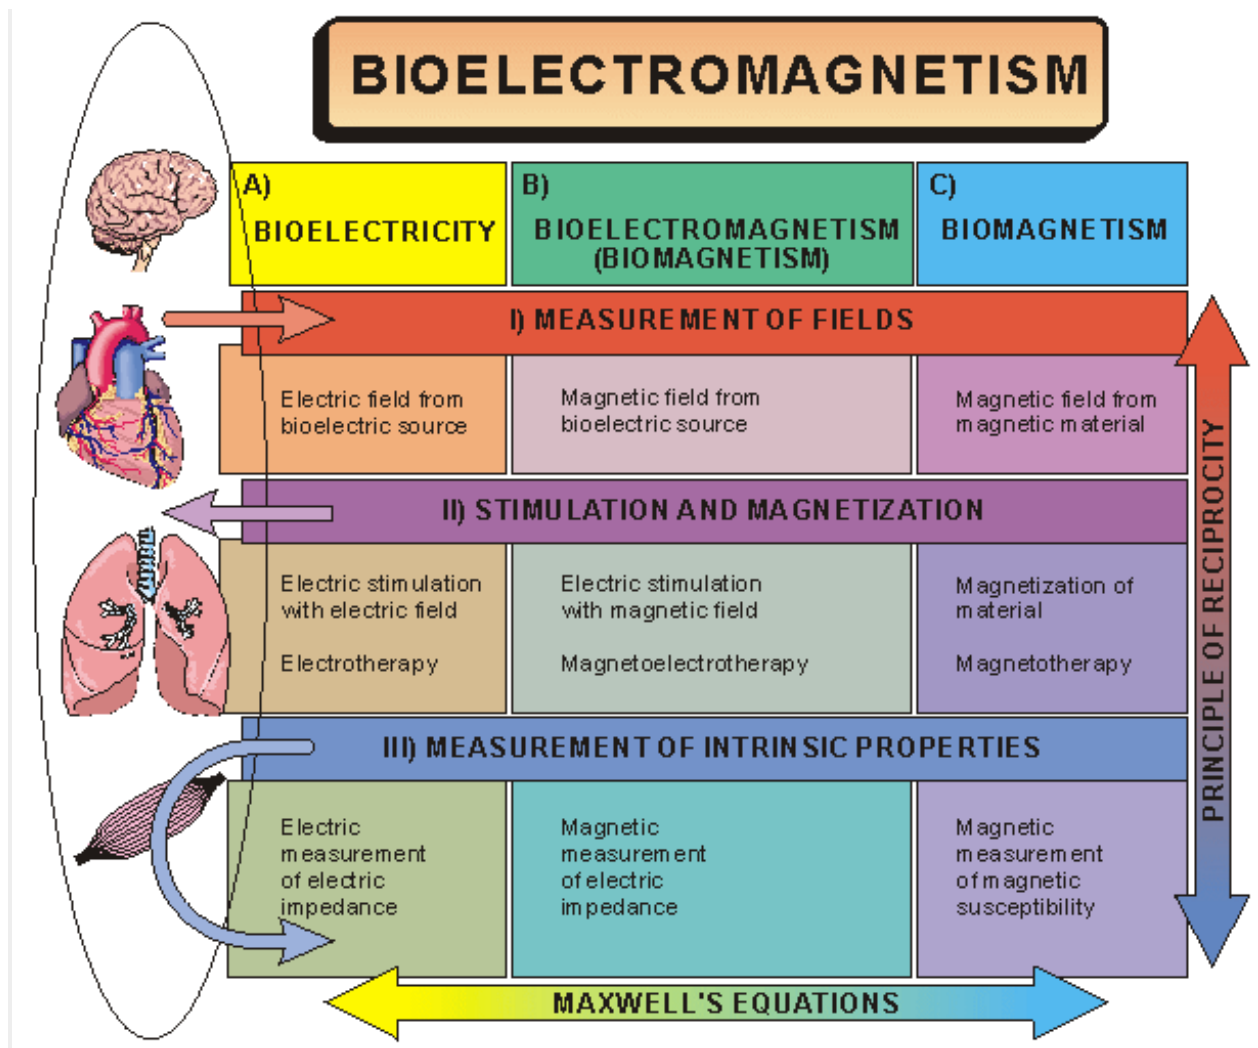

There are anecdotal reports of a 28-day life cycle of the Morgellons, ending with the parturition of the fruiting bodies.

Shortly before the parturition one female patient reported of heaving the sensation of a strong extraction of bio photons from her body. The process was triggered by pain in the intestines and was experienced as if energy is flowing from the head to the lower body, accompanied with a rhythmically pulsed suction that appears as a sound in the ears. According to her own words the patient during this process of bio-photon-extraction suffered from fever and physical weakness.

People with heavy infections show a number of psychologic patterns. They might become very egocentric, obsessed about talking about their disease, but at the end about 90% miss out on their appointments with doctors, as soon as real help is underway. The disease seems to have the ability to take over part of the consciousness of the patients. Similar symptoms are reported from borrelia. It is advised to have someone assisting with the medical appointments and the application of medication.

Single patients also show whole insect-parts growing out of their flesh.

## MORCELLONS DNA

Due to the ability of the Morgellons to assimilate parts of the DNA and carry the morphogenesis of a higher being, possible relatives or ancestors of the eventually genetically modified fungus could be two bio-insecticides: Beauveria brongniartii und Metarhizium. Due to its morphogenesis and the ability to affect humans another fungus might be related: Basidiobolus, the fungus that causes the perianal crohn disease.

If the several thousand photos processed by the consortium weren't fake, the Morgellons first grows through the cell tissue, including - according radionic testing - bones and brain. To reproduce, the fungus crosses through the stomach barrier and developed its fruiting bodies within the intestines, and sometimes also within the uterus.

## FRUITING BODIES

According to one single patient with strong symptoms one live cycle of these fruiting bodies takes 28 days. The fruiting bodies carry a humanoid morphogenesis. Typical properties of the fruiting body are a shrimp-like form with a hip, a head with a distinct forehead similar to the human embryo in the 20th week of pregnancy, naval cord, a reptile shaped tail and one single insect eye. There are male and female forms, who might form unisexual multiple Siamese twins

within one fruiting body. The female forms are rather oval and carry pearl-chain-like patterns of red eggs or stem cells under their skin, that have been described by the Carnicom institute as modified human red blood cells that basically withstand everything, burning with a Bunsen flame, deep freezing, vacuum and treatment with acids. The male forms are rather slim and produce a single "bulbus" like structure, i.e. something resembling the male reproductive organ of a spider. The single insect eye at the same time is the reproductive organ of the fungus itself, producing transparent multilayered hexagonal structures carrying the spores of the fungus.<sup>xvii</sup> Following the laws concerning medical practice and trade with pharmaceuticals, the consortium is not allowed to promise healing or advise distinct treatments available. The fact that the Morgellons disease is not even related to an officially recognized frame of symptoms makes the legal aspects of this situation even more complex.

## **CHEMICAL ENVIRONMENT**

The consortium has come to the conclusion that with many forms of mycosis the question if the infection develops heavy symptoms is subject to the chemical environment within the body, and to the vitality of the immune system. Following this opinion, the consortium believes that the best way to heal such infections without side effects is to readjust the chemical environment within the body of the patient. According to this opinion it is not of primary importance to attack or kill the fungus, but simply to re-adjust the parameters of the system back to normal. These parameters are acidity, availability of certain minerals and vitamins in the body, and the amount of toxins and heavy metals both circulating and deposited in the body. The condition of the environment in the human body is mainly subjected to the uptake of toxins from food and environmental pollution, by genetic pre-disposition and by chronic infections that influence the ability of the body to process food and detox itself. After having evaluated a number of interviews with heavy Morgellons cases, the consortium has identified a repeating pattern of previous diseases that seem to form an environment that supports the outbreak of a heavy Morgellons infection. These previous diseases are: Pyroluria, camouflaged candida and borrelia-infections.

## **BLOCKING ABILITY TO TAKE VITAMINS B6, AND ZINC**

Pyroluria originally was a genetically caused disease that blocks the ability of the body to take up vitamin B6 and zinc. A lack of vitamin B6 and zinc affects the ability of the body to detox. 2-3% of the population were affected. Nowadays 30-40% of the population are affected by a secondary pyroluria caused by mercury poisoning.

## **CAMOUFLAGED CANDIDA**

Camouflaged candida is a mutation of normal candida-forms. They appear after the application of antibiotics and a follow-up treatment with antimycotics. They stop appearing in their normal yeast-like appearance, instead form isolated bubbles in the blood that camouflage themselves by placing fungus-receptors on the outer surface of the bubble. The immune system hence loses its ability to recognize and attack these candida-enclaves. The c-candida lives from glucose only. By fermenting the sugar, it produces acids and various mycotoxins. According to Ekkehard Sirian Scheller, this c-candida additionally is associated to an under function of the liver, i.e. with a loss of the ability of the liver to detox itself and especially the nervous system. This especially concerns mercury.

Borrelia is known to produce a high variety and amounts of toxins and acids, as well as to use up essential minerals like magnesium.

## **FUNGAL INFECTIONS**

In this context fungal infections appear in a different light. One could state that the fungi do not attack the body, but that the body takes advantage of the ability of the fungus to absorb and deposit toxins, especially heavy metals. With Morgellons this ability leads to the up-concentration of the blue and red nano-dyes within the fibers. On the long hand this mechanism leads to a heavy mycosis and a complete intoxication of the human body with fungi, acids and heavy metals.

Against this background the consortium advises to treat a mycosis caused by the mis-adjustment of the chemical environment within the body by readjusting this chemical environment. This especially concerns the treatment of the three common underlying diseases, pyroluria, c-candida and borrelia infections, as well as the treatment of the acidity of the body and the detoxing of heavy metals.

As to the diagnosis of possible genetic pre-dispositions we advise to consult a physician or healing practitioner. As to special diets, food supplements and other alternative treatments we advise to study the findings of the environmental medicine by Dietrich Klinghardt and/or the consultation of a Klinghardt-therapist.

## **RESEARCHERS DISEASE CONTROL**

Researchers with the Centers for Disease Control note that the signs and symptoms of Morgellons disease are very similar to those of a mental illness involving false beliefs about infestation by parasites (delusional parasitosis).

## **What do researchers know about Morgellons disease?**

A possible link between Morgellons and infection with *Borrelia spirochetes* has been suggested by one group of researchers. Three in the group are affiliated with the Morgellons Disease Foundation.

In an earlier study, researchers with the Centers for Disease Control and Prevention (CDC) concluded that Morgellons disease, which they refer to as an unexplained dermatopathy, isn't caused by an infection or parasites. They studied samples of skin, blood, urine and hair.

Further research is needed to determine whether Morgellons is a new disorder and, if so, to develop diagnostic criteria. xviii

## **NO LEGAL TREATMENT**

Due to the fact that up to now the Morgellons disease has not been officially recognized, the pharmaceutical industry has no legal frame to develop any treatment. The only products that can be offered legally are of energetic, radionic or infopathic character. However, because of the lack of recognition of these methods it is forbidden to give advice on or advertise single products.

There is a solution available out of the field of "infopathica" that has been developed within this consortium following its findings. For legal reasons the name of the product cannot be published here. "Infopathica" is a trademark registered by Ekkehard Sirian Scheller.

### Invisible energy Fields

As revealed in the study of quantum physics, the world around us is comprised of energy.

It is not something we can touch or see with our human eyes.

Yet, energy patterns and vibrations surrounding us and moving through us have a profound effect on our physical bodies.

Author Daniel Reid, who has written numerous books and magazine articles on various aspects of Asian self-health and self-healing practices, offers an interesting perspective in his article Electro-Magnetic Energy

Pollution, which discusses the effects that electromagnetic energy pollution has on our energetic and physical bodies: [11]

“In traditional medicine, the human energy system (HES) serves as a functional bridge between body and mind, and energy is the therapeutic medium that heals and balances both physical disease and mental malaise. Today, the HES have come under intensive attack from an entirely new phenomenon which the human system has never before had to face. This new threat to human health and longevity is the rapidly growing hazard of electromagnetic ‘energy pollution.’” [12]

The human body is now routinely bombarded with all types of pollutants, from toxic chemicals, to biochemical pollutions such as GMOs, to unnatural energy fields. This affects the tissues, bodily fluids and the bloodstream, and often results in conditions such as acidosis, which, in turn, is believed to causally trigger many other illnesses such as diabetes, high blood pressure, cancer, arthritis and even mental disorders. [13]

## Energy Pollution

Energy pollution is made up of artificial **electromagnetic fields** (EMF) caused by artificially-generated radio frequencies, electrical power lines and transformers, **smart-meters**, home appliances such as microwaves and electric stoves, fluorescent lights, electrical

devices such as electric razors, computers and cell phones, and many other every-day items. [14]

“These invisible but highly reactive energy waves and artificial EMF have become the big unknown factor in all the vital equations of human health, and they constitute the hidden cause in many common human ailments, from cancer to schizophrenia.

This pollution of our energy environment is even more hazardous to the human system than chemical and ecological pollution, and it calls for an entirely new approach to healing, an approach that effectively protects the HES from distortion by artificial energies and EMF and cures the conditions they cause.”

## **ELECTROMAGNETIC WITCH DOCTOR**

This is by a person in a discussion on the internet. See reference below in footnotes.

First: this is a magic system BASED on Electromagnetic Radiation. That means to me you're not tied completely to what the spectrum of radiation can do in real life, your wizards who work in Inferred don't just work with Inferred, in my view they would be your Pyromancers playing off the connection between inferred light and heat. So, having said that lets go into more detail.

xx

## **IONIZING RADIATION**

In the spectrum there are few places you need to hit, as I said early you have three broad types of radiation, Ionizing, visible light, and Non-ionizing radiation. So, let's break that down.

**Ionizing radiation:** these are Gamma ray, X rays and Extreme ultraviolet, for ease of use I would lump Near ultraviolet in as well. So, what do we know about these rays? well these are the deadly rays that can kill you by giving you cancer and the like. Gamma rays also are produced by radioactive and stars, X rays are used in medicine, the extreme Ultraviolet rays is used for lithography, solar telescopes and Photoemission spectroscopy (energy measurement of electrons emitted from matter) and regular ultraviolet rays are used for wide area of things from sanitizing to Analytic.

## **GAMMA WIZARDS ATOMIC MEDICINE**

Put together I would Make Gamma Wizards the dark magic, while they can be used in atomic medicine, the ability and ease of this stuff in killing means that they would be feared for dark, felt magics among the common folk and you average Gamma Wizard would pretend to be an X-ray mancer and stick to healing people.

## **HEALING WITH X-RAY**

X ray, as I said, are used a lot in medicine, say X rays and every one thinks of an X ray machine, so X rays wizards would be our light magic. Healers and the like able to focus power from the heavens, (referencing the X rays commonly made by stars) to heal. Of course, as healers they also know how to mess up a body and if you make one made they could kill you dead easily.

The Extreme Ultraviolet wizards, to reference uses in Lithography and Photoemission spectroscopy would be our magic black smiths, they make things with magical patterns finer than 7 nanometers while they use the Spectroscopy powers to learn about matter and how much magic is in it.

## **ULTRAVIOLET WIZARDS**

Lastly your near Ultraviolet wizards would be able to do a bit of everything given its wide set of uses. Think of it as apprentice magic, all Ionizing wizards start here and learn more of the other types of magic as they study.

Of course, all radiation of this type can still kill you dead as a door nail with radiation powers so they are respected and feared in equal measures. <sup>xxi</sup>

**Visible light:** As I said, this the light we can see and this would work like the [Light 'em Up](#) trope. Holy magic, illusions, laser beams, ectara. These are all the things you can expect from Visible light.

**Nonionizing radiation:** on the flip side of the ionizing stuff we have non-Ionizing radiation, infrared, Microwaves and Radio waves are on this side, but there much further delineated. there are three kinds of Infrared, and 11 kinds of Radio, a few of which are what we call 'microwaves'.

**Infrared:** Infrared is typically known as the type of radiation given off by heat, so Infrared wizards would be [Pyromancers](#) and the three grades of Infrared (Near, Mid and Far) would be grades of how powerful each mancer was, a Near Pyromancer would be a beginner, while a Far Pyromancer would be able to creating firestorms at near will.

**Microwaves:** As I said, microwaves are just a subtype of radio waves, radio waves with a frequency of 300 [M Hz](#) (100 cm) to 300 [G Hz](#) (0.1 cm), which means (assuming I understand wiki right,) Ultra high frequency, Extremely high frequency and Super high frequency. Microwaves are used communication, navigation (GPS use this band), radar, Radio astronomy, heating (of course) and Spectroscopy. Taken as a whole Microwaves I'm having issues finding a unifying theme for microwave, and we need to keep communication for the Radio wizards we can't keep that power here. I would give Microwaves powers related to location finding, distance reading, maybe divination like power set? with some ability to enchant objects to be deadlier to represent microwave-based radar systems used by the army?

**Radio waves** communication. It's what we mostly use radio waves for. But as I said before we also get a lot of radio waves from space and depending on your cosmology high level Radio wizards can either talk to the gods beyond the stars, making them like clerics, or are in contact with dark or evil, or just alien things. as a side it may also work giving them portal powers to go along with the 'beyond the stars' communication aspect.

Black Goo, Morgellons, Programmable Matter w. Harald Kautz (-Vella) - Secret Teachings (2/8/17)

### **IS MORGELLON'S DISEASE RELATED TO BLACK MAGIC RITUALS?**

**It is known that some of the entities dealing with Morgellons practice black magic rituals.** One possible interpretation of the Morgellons life cycle that at this point gains importance, is that the fungus is adopting the morphogenesis of a higher species, and in this context forms the reproductive organs of this species to give birth to a second generation of this higher species. According to this theory, at the end of the cycle the species of the second generation uses the optical properties of the Morgellons fibers to extract bio-photons from the human host. This is done by triggering the feeling of pain transmitted through the Morgellons grid.

The body reacts with the impulse to heal, sending out bio photons produced to regenerate injured tissue. This light could be collected by the Morgellons, lead to the second-generation species and used by it to higher its scalar potential, i.e. the amount of light stored within its DNA cluster. Increasing the scalar potential to a certain extend would shift the species to higher realms, transfer it to a kind of hyperspace, where it stops interacting with normal matter, becoming something, we would experience as a demon, in scientific word a light parasite. Such a process is not in conflict with physics. The possibility of parallel space time sheets is given by Topological Geometrodynamics. These states of parallel space time sheets have been artificially produced in labs.<sup>xxiv</sup>

## **FEELING CRAWLING UNDER SKIN RESEMBLANCE OF FEELING POSSESSED**

In respect to the feeling of insects crawling under the skin there is a high resemblance to the subjective feeling of being possessed by a demon following to black magic rituals. Thus, it seems possible that the entire Morgellons-agenda is introduced by people involved into black magic rituals and is designed to help a trans dimensional species to reproduce via humans. A species that has been regarded as demons.

According to different written traditions these trans-dimensional species actually does exist. They are supposed to be arachnoid during embryonic development and youth, and later develop humanoid character. In old age the humanoid eyes are told to close, while one new eye opens I the middle of the forehead. It is referred to as the eye of the antichrist - the symbol on the top of the pyramid - resembling the single eye on the morphogenesis of the Morgellons fruiting body.

## **ALTARS AND BLACK GOO**

Sufism understands itself as the order that has the mission to keep this species under control. During human history there is a long list of rites and cults gathering around black stones containing black goo, all the way back to Greek coins showing that the tree in paradise was connected to these stones. This would hint to a very rational interpretation of the process that kicked humanity out of the collective consciousness of paradise, re-directing its consciousness to black goo stuck on retinoid consciousness, creating duality. Additional, there are repeating connections between black stones that resemble the stones identified in the NS mining area, demons and black magic rituals done by humans to revive these demons. Also, these stones form the center of Islam and Christianity; being deposited in the Kaaba in Mecca and under all the altars of the older churches of Europe. Would be interesting to find out which consciousness they carry.

## **WHAT IS BLACK GOO?**

Black Goo is an abiotic mineral oil from the upper crust containing high amounts of m-state gold and iridium. It has been found on Thule Island on the South Falkland Islands and under the Gulf of Mexico. Furthermore, there exists a black oil schist containing this type of oil from earlier tectonic events. These events apparently broke up the crust of the earth.

## **BLACK GOO HAS ABILITY TO INTERACT FULLY CONSCIOUS BEING**

M-state gold and iridium function as the bio-photon-field attractor responsible for interconnecting life forms with their morphogenetic field. Sea-water contains high amounts of m-state matter. Within the life forms the superconducting m-state matter is placed inside the DNA-strings. These mono-atomic elements are attracting the bio-photons, while the DNA acts like a coil transforming the field energy into electromagnetic scalar potential. This m-state-matter guided bi-directional light-exchange of the DNA defines the scalar potential eddies whose fractal and holographic character is responsible for the form and shape of life-forms.

Black Goo shows a hitherto unknown type of magnetism, much longer in range than ferromagnetism, that seems to be interactive in a spontaneous way, that very likely is based on bi-directional, annihilated photon exchange as known from m-state-matter in life-forms. Due to this magnetism Black Goo shows the ability to mechanically self-organize in many different ways and has been reported to carry highly intelligent consciousness.

The Black Goo within the crust and the m-state matter within the biosphere seem to be interconnected by quantum entanglement and function as a consciousness-mirror.

## **BLACK GOO CARRIES A BIOTIC CONSCIOUSNESS**

Black Goo thus carries an a-biotic consciousness representing the collective consciousness of the entire bio-sphere. The form of organization is holographic; thus, every portion of Black Goo is able to interact as a fully conscious being. Looking at the mythological reception of nature it has been described as Lucifer, Mother Earth, the Black Madonna, and is meant to be the physical location of the collective memory of mankind, aka the akasha chronic.

## **COLLECTIVE CONSCIOUSNESS**

The quantum entanglement between life-forms and the Black Goo inside the earth seems to lead to a very high degree of self-similarity. In result, the Goo extracted by past geologic events carries a different type of consciousness than the Black Goo of our days. The Black Goo with an age of about 300 million years extracted from oil schist even today still carries a reptilian type of consciousness.

## **FALL OF LUCIFER**

This disconnection from the actual state of consciousness has been regarded in mythology as the fall of Lucifer.

During the evolution of life certain life forms stayed connected to the geologically marginalized Black Goo and thus got stuck on reptilian consciousness. When humans are brought into contact with this type of Black Goo, the light-transfer of the bio-field of the human body might be redirected onto the archaic Black Goo, which might reduce the complexity of the human Chakra System to blue, yellow and red, i.e. to mental abilities, life force and sexuality. It leads to a state of being intelligent, but heartless and cold in appearance. It disconnects the human from the collective consciousness of his time.

## **BLACK GOO ARCHONS AI & NASA'S DEEP DARK SECRET**

February 8, 2016

Something like this must have happened in the event described in the mythology as the deterioration from paradise. The effect seems to be handed over to following generations referred to as the heritable sin mentioned in the bible by ongoing quantum entanglement transferred with the genetic information. It also refers to the traditions of the bloodlines, who seem to try to keep this reptilian entanglement as strong as possible. <sup>xxv</sup>

It's not every day that I am introduced to something that I've never heard about. I \*have\* heard about the apocalyptic "Gray Goo", an End Times scenario, where nanotechnology all descends into an amorphous blob that consumes the Earth.

## **HARALD KRAUTZ VELLA**

Over the past week, I've repeatedly received this clip of a talk on Black Goo given by **Harald Krautz Vella at Miles Johnston's Bases conference**, held in the UK last summer.

I'm at a loss as to how to summarize this talk. It's too complex for a summary...but I'll try. If you find yourself wanting more information, there is a somewhat more expository clip and is also long but the more juicy bits are in this actual talk.

## **WHAT'S BEING PUT IN CHEMTRAILS**

It contains incredibly weird and compelling information about what's being put in [chemtrails](#) (and for what purpose), negative entropy, time reversal, DNA, scalar resonance through different dimensions and realities, archons and an ancient AI that's run amok.

All of this relates to “Black Goo”, an abiotic mineral found in the Earth’s crust that’s said to be sentient, programmable and possessing magnetic properties which exceed those previously known and measured, such as iron magnets.

Black Goo exists in its native form, with the largest deposit found in Paraguay, the landlocked South American country where George W Bush bought a huge parcel of land and where cronies from his Administration bought homes nearby – as did German Chancellor, **Angela Merkel**. **Sizable deposits of this stuff exist in the Gulf of Mexico and in the Falkland Islands.** It is suggested here that at least part of the motivation for the UK’s 1982 war waged against Argentina, asserting its control of the Falklands territory was driven largely by the significant deposits of Black Goo found on these islands of the Southern Patagonian Shelf.

Then, there is also an invasive Black Goo, which arrived here in a cluster of asteroid impacts 80,000 years ago and this is **related to demonic archons, who feed off of the bio-photons of human beings.**

As some may recall, it’s been scientifically revealed lately that the human body emits bio-photons, aka Ultraweak Photon Emissions (UPE) in the 380-780 nanometer range...as you can see, this topic touches on so many things – and this isn’t even the tip of the iceberg.<sup>xxvi</sup>

### **German SS Major role in Black Magic Rites**

Archaic Black Goo played a major role in black magic rites, last intensively researched by the inner core of the German SS. In the middle-ages these black stones were utilized by black magicians to connect with archonts, aka demons, archaic beings which have developed out of early spiders who entirely live as light parasites and try to align with humans to form a symbiosis, where the archont feeds on the bio-photons of the human and the human profits from the mental (magical) abilities of the archonts. xxvii

## **Faith is the Avenue to Deliverance**

### **Breaking Curses Prayer**

Spiritual things do not happen just because you hear someone say something and then you repeat or copy their words that they say. Your faith and spiritual activity must be founded in the Word of God.

Father I rebuke, break and loose myself and my family from any and all evil curses, fetishes, charms, vexes, hexes, spells, every jinx, all psychic powers, sorcery, bewitchments, enchantments, witchcraft, love potions and psychic source.

I return them to where they came from now!

“And I will make of thee a great nation, and I will bless thee, and make thy name great; and thou shalt be a blessing: And I will bless them that bless thee and curse him that curseth thee: and in thee shall all families of the earth be blessed,” (Gen. 12:2, 3).

“Let people serve thee, and nations bow down to thee: be lord over thy brethren and let thy mother's son's bow down to thee: cursed be every one that curseth thee, and blessed be he that blesseth thee,” (Gen.27:29).

“And the LORD thy God will put all these curses upon thine enemies, and on them that hate thee, which persecuted thee,” (Deut. 30:7).

“Let him that love curses receive it unto himself,” (Psa. 109: 17-19).

“You should read this entire Psalms to fully understand returning the curses,” (Psa. 109).

### **Blocking Transference of Spirits**

I forbid and block all Satanic and demonic activities for myself and all my family our lives. I ask you Father to surround myself, family, church, pastor and leaders and wives with warring angels. The blood of Jesus Christ is between us and the forces from hell in Jesus's name.

### **The Truth**

Jesus says in (Mk. 7:21), "For from within, [that is] out of the hearts of men, come base and wicked thoughts, sexual immorality, stealing, murder, adultery; 22). Coveting (a greedy desire to have more wealth), dangerous and destructive wickedness, deceit; unrestrained (indecent) conduct; an evil eye (envy), slander (evil speaking, malicious misrepresentation, abusiveness), pride (the sin of an uplifted heart against God and man), foolishness (folly, lack

of sense, recklessness, thoughtlessness). 23) All these evil [purposes and desires] come from within and they make the man unclean and render him unhallowed."

These names that shown above are all names of demons; look at these early Christians that had backslidden and how the Apostle Paul dealt with them. "In the name of our Lord Jesus Christ, when you are gathered together, and my spirit with the power of our Lord Jesus Christ, to deliver such an one to Satan for the destruction of the flesh, that the spirit may be saved in the day of the Lord Jesus" (I Cor. 5:4, 5). Apostle here deals with disobedient and sinful believer in the church at Corinth. Verse 10, specifically emphasizes that he is speaking not about evildoers of the world but in the church. Verse 12, Again it is made clear. Jesus is coming soon!

## **Deliverance of the Prisoners**

Charles H. Spurgeon tells us, "None but Jesus can give deliverance to captives, real liberty cometh from Him only. It is a liberty righteously bestowed; for the Son, who is Heir of all things, has a right to make men free. The saints honor the justice of God, which now secures their salvation. It is a liberty which has been dearly purchased. Christ speaks it by His power, but He bought it by His blood. He makes thee free, but it is by His own bonds. "Thou goest clear, because He bare thy burden for thee: thou art set at liberty, because He has suffered in thy stead. But, though dearly purchased."xxviii

Spurgeon goes on to write, "He freely gives it. Jesus asks nothing of us as a preparation for this liberty. He finds us sitting in sackcloth and ashes, and bids us put on the beautiful array of freedom; He saves us just as we are, and all without our help or merit. When Jesus sets free, the liberty is perpetually entailed; no chains can bind again. Let the Master say to me, "Captive, I have delivered thee," and it is done for ever. Satan may plot to enslave us, but if the Lord be on our side, whom shall we fear?"

"The world, with its temptations, may seek to ensnare us, but mightier is He who is for us than all they who be against us".

The machinations of our own deceitful hearts may harass and annoy us, but He who hath begun the good work in us will carry it on and perfect it to the end. The foes of God and the enemies of man may gather their hosts together, and come with concentrated fury against us, but if God acquitteth, who is he that condemneth?" says Spurgeon. Not more free is the eagle which mounts to his rocky eyrie, and afterwards out soars the clouds, than the soul which Christ hath delivered. If we are no more under the law, but free from its curse, let our liberty be practically exhibited in our serving God with gratitude and delight. "I am Thy servant, and the son of thine handmaid: Thou hast loosed my bonds." "Lord, what wilt Thou have me to do?"xxix

## **WHAT HAPPENS WHEN WE DIE**

The Bible is the holy instructions for our lives and it tells us what will happen when we die...

### **If you are not saved, then you are in trouble**

One Day You will Die — and if you are still not saved when you die, you will go to [hell](#). xxx  
Facts You Need to Know

**We have all sinned** (Romans 3:23) and done wrong things like lying, stealing, murdering, fornicating, being prideful, etc.

**The wages/payment of sin is death** (Romans 6:23). This is why we all die--we have sinned and done wrong. All of the lying, murder, and wrong that we are witnessing on earth will not go unpunished. There will be justice. You will personally stand before God. **You will be judged for what you have done--*all of it*. Sinners go to [hell](#) and burn forever in torment.** God is holy and perfect (1 Peter 1:16) and full of mercy and compassion -- he does not want sinners to perish (2 Peter 3:9). He loved us and sent his only begotten Son, the Lord Jesus Christ, to pay for our sins. **The gift of God is eternal life through Jesus Christ our Lord. We only have to repent of our sins (change our minds about how we are going to live) and believe on the Lord Jesus Christ.**

John 3:16 For God so loved the world, that he gave his only begotten Son, that whosoever believeth in him should not perish, but have everlasting life.

**The Lord Jesus Christ was crucified and shed his blood to pay for our sins. But he did not remain dead. He rose from the dead on the third day and is seated at the right hand of the throne of God. If you REPENT of your sins (turn from them so that you can start listening to God's word) and BELIEVE on the Lord Jesus Christ (his death, burial and resurrection/rising from the dead), you will be saved.**

**The Lord will help you to live uprightly and obey his word, the Holy Bible (the Authorized (King James) Version of 1611 <sup>xxxi</sup>**
